RESIDENT HANDBOOK: PURPOSE

This handbook is provided to help you become familiar with your rights and, as importantly, your responsibilities as a community member in Campus Town. The Resident Handbook will also provide information regarding safety, maintenance, and resident accountability.

Beneficial community living requires that members enjoy their own residences while observing community standards that govern relationships with other residents, visitors, and staff, and that respect the premises in which all live. This Handbook is provided as a source of information to help ensure that all residents are familiar with their rights and responsibilities to achieve our goal of providing a convenient, secure, comfortable, and vibrant residential community. The Resident Handbook may answer many of your questions, but if not, please consult a Campus Town staff member with any additional questions. Your Resident Assistants (RAs) and professional staff are available to assist you should you have questions, ideas, suggestions, and/or wish to become more involved in the Campus Town community. Please take the time to read this Resident Handbook and learn more about your new home.

The atmosphere and programming at Campus Town reflect that all the residents here are students and part of the TCNJ community. A college experience should enrich the lives of students not only through their education in the classroom, but through interactions with persons from different cultures, religions, and geographical areas, who may have diverse educational interests. While a college education focuses on individual intellectual/academic development, these are also the years to develop the strong sense of community and social responsibility that should be the lifetime legacy of an education. Living in a residential community expands these opportunities and enriches the intellectual, cultural, and social development that is the ultimate reward of attending college.

RAs assist students with questions and with personal and academic problems, and they are trained to provide referrals to resources on campus for more in-depth assistance.

Our approach to safety and security rests on one simple notion: everyone observing common precautions contributes to a safe and secure place for all to live.

Not only are you expected to not engage in actions that disrupt your community, you also are expected to assist in maintaining the standards of your community.

If not produced or after recurring lock-out services, the resident will be charged for a lock change and replacement fob (\$150.00 for each core that needs to be replaced).

If a resident needs a lock-out assistance performed at a designated lock-out time, the resident will need to be physically present at the time of the request during the above-listed times. Keep in mind that once the staff member is called to perform the lock-out assistance, the resident's account will be charged for the lock-out fee.

Residents need to have proper photo ID for residency verification purposes.

Electric Motor Powered Hoverboards, E-Bikes, E-Scooters, etc. Policy

Safety is the responsibility of the entire Campus Town community. Due to safety concerns, Campus Town prohibits the use and storage of hoverboards (also known as self-balancing scooters or smart boards), e-bikes, e-scooters, and other electric motor small vehicles that utilize lithium-ion batteries in Campus Town apartments and on Campus Town property.

The Consumer Product Safety Commission has released reports regarding potential fire hazards resulting from the lithium-ion batteries that power these devices, and the lack of safety standards and regulations needed to limit this risk.

Additionally, these devices also present a higher risk of injuries, including concussions, fractures, contusions, and internal organ injuries that may result from collisions.

Failure to abide by this policy may subject the individual to disciplinary action. Damages and/or injuries occurring to Campus Town property or individuals will be the responsibility of the electric device operator.

FIRE SAFETY

Fire Safety Equipment (See *Rules and Regulations* sections 15-18)

All rooms and apartments are equipped with smoke detectors. Each apartment is equipped with a sprinkler system. Several fire alarm pull stations are located in each corridor. This equipment is monitored to ensure that it is in good working condition. If an emergency arises and you use the fire extinguisher, the extinguisher must be recharged and can be done by completing a work order request through your resident portal. Fire extinguishers are in the hallways, there are 4 fire extinguishers per floor. Fire extinguishers are not to be removed from their original placement unless they are being used. You must notify your RA and/or the RA on duty at the time an emergency occurs and contact The Campus Town Management office or Campus Police. Failure to notify Campus Town may result in disciplinary action, as well as a fee to recharge the extinguisher and to repair any consequential damage to the property. If the smoke detector in your room indicates any errors or issues including low battery via beeps and/or flashing indicator lights, please submit a work order through the Resident Portal to have the battery replaced or smoke detector serviced.

Any person who sets off a false alarm, interferes with the operation of the alarm system, or damages or removes any part of the alarm system for purposes other than those related to fire safety (including, but not limited to fire extinguishers, smoke detectors, sprinkler systems, fire doors or removes an exit sign) is subject to severe disciplinary actions.

Fire Alarms/Evacuation Procedures (see *Rules and Regulations* sections 15-18)

In case of fire and during a fire alarm we ask that you please use stairs to exit the building and refrain from accessing Campus Town elevators.

After evacuating, do not re-enter the building for any purpose until emergency personnel or Campus Town staff directs you to do so. Failure to comply with re-entry instructions, and/or evacuate during an alarm may subject you to disciplinary action from Campus Town staff. Once the building is evacuated Campus Town staff will direct you on where to proceed for the remainder of the alarm.

MAINTENANCE AND CARE

Room Condition Report (RCR)

Establishes the condition of the living space and its contents at the start of occupancy, and therefore, allows for important occurrences:

- Allows the new resident to identify and report needed corrections (via work order)
- Items not repaired (because they may indicate *normal wear and tear*) and/or delayed maintenance that does not present a safety threat, would be established as NOT the fault/responsibility of the new resident.

Residents are strongly encouraged to complete the information contained in the “RCR” so that they are comfortable that it accurately portrays the condition of the room upon their arrival. Resident’s failure to complete the Room Condition Report within 72 hours will result in the binding assumption by Campus Town staff that no damage was found in any sections of the living space.

Completing Your Online Room Condition Report via the Resident Portal

1. After moving in you will be provided information via email on how to complete your Room Condition Report (RCR)

The RCR will be reviewed by Campus Town staff and if there are any items which require repairs, a work order will be created by the end of the next business day. If any of the items requiring repairs are an emergency, please contact the Campus Town Management office or your RA immediately.

Room Changes (See Lease Agreement section 10)

Residents who wish to change their room assignment should contact the Campus Town Management Office. However, room changes can only be approved if space is available and are at the discretion of Campus Town Management. If a room change is accepted, then a fee of \$100 will be applied to a resident’s account. Also, there may be a charge to prepare your old space for a new tenant.

Checking Out

Upon the completion of the Lease Agreement term, or during a room change, students must return all keys given upon moving in and vacate their apartment. The apartment should be left in “a broom cleaned condition”, all items and trash must be removed from the apartment. Any damages should be reported to the Campus Town Management office. Detailed timelines and instructions will be provided at the end of each contract term or with your room change approval.

DO NOT REMOVE any 3M Command Strip hooks you placed on the walls; our staff will remove them. If you used any adhesives that cause damage to the wall/s or paint, you will be charged.

Condition of Premises (Damage Billing) (See Lease Agreement section 9)

Residents are responsible for all damage or destruction to their room/common area caused, directly or indirectly, by resident or resident’s guests or invitees. As of the Lease Agreement termination date, apartments and the assigned rooms shall be in check-in ready condition, except for reasonable wear and tear.

Work Orders

Submit an electronic work-order via your resident portal. Please note that although efforts are made for same-day response, work order requests will be prioritized based on severity of need. In some cases, multiple visits to the room may be necessary, but in most cases the repair can be resolved with one visit. Instructions on how to fill out a work order will be provided via email at move in.

- Keep in mind that common maintenance issues may not require a work order. A common issue involves a “tripped” breaker. Instructions on how to reset a breaker are below. Additionally, you will also find essential information on how to operate a fire extinguisher in the event of a fire. Lastly, the recommended settings for your apartment thermostat are listed below.
- If you are still encountering maintenance issues, please follow the above instructions to submit a work order through your resident portal.

HOW TO RESET A BREAKER

- As seen in the above photo, the breaker is “tripped” or not aligned with the other breakers. Simply switch the breaker to the “off” position, then switch it to the “on” position. This usually resolves the problem.
- If several attempts to reset the breaker have failed, submit a work order through your resident portal.

FIRE EXTINGUISHER TRAINING

Available in the hallways on each floor.

P A S S

Pull the Pin at the top of the extinguisher. The pin releases a locking mechanism and will allow you to discharge the extinguisher.

Aim at the base of the fire, not the flames. This is important - in order to put out the fire, you must extinguish the fuel.

Squeeze the lever slowly. This will release the extinguishing agent in the extinguisher. If the handle is released, the discharge will stop.

Sweep from side to side. Using a sweeping motion, move the fire extinguisher back and forth until the fire is completely out. Operate the extinguisher from a safe distance, several feet away, and then move towards the fire once it starts to diminish. Be sure to read the instructions on your fire extinguisher - different fire extinguishers recommend operating them from different distances. Remember: Aim at the base of the fire, not at the flames!!!!

THERMOSTAT SETTINGS

- The lowest temperature the thermostat can be set to is 70°.
 - Do not attempt to change this lower restriction as it could cause damage to the HVAC system.
- For colder months, the thermostat should be set no higher than 75°.
 - Adjusting the thermostat below above 75° can overwhelm and possibly damage the HVAC system.
- Set Fan to be on AUTO.

Right of Inspection and Entry

Campus Town staff may, upon 24 hours' notice, enter the apartment/bedroom at reasonable hours for the purpose of making inspections, repairs, and for any other purpose deemed necessary, except during an emergency. If an emergency occurs, then notice may not be able to be given to the residents in advance of entering the apartment. A request by any resident of the apartment shall also constitute permission for Campus Town, its representative or designee, to enter the apartment. A maintenance request by a resident shall constitute the consent of Campus Town to enter the room and perform the requested work.

Campus Town Sustainability Challenge

By choosing to live in Campus Town, we encourage you to live by and educate your roommates on the sustainability practices listed below to help conserve energy and promote a greener environment:

1. **Lights**
 - Turn off after use
 - Bulbs purchased (If you decide to buy rather than fill out a work order) should be energy efficient
2. **Appliance Care**
 - Washer/Dryer
 - Lint vent should be cleaned after every dryer use
 - Should not be overloaded
 - Run on only half/full loads
 - Stove/Oven
 - Clean/wipe after every use (wait until cool)
 - Monitor cooking carefully (to avoid cooking fires, smoke)
 - Refrigerator
 - Keep vents clean
 - Dish Washer
 - Only run on half full/full loads
3. **Utility Conservation**
 - Use only one surge protector per outlet (not socket)
 - Surge protectors and electrical items should be unplugged unless in use
 - Limit length of hot showers
4. **Air Conditioning**
 - Thermostat should be set no lower than 67 degrees in summer on 'cool' setting
 - Setting too low may cause the system to freeze up and impact the HVAC from cooling and will take several hours to defrost before being operational again
 - Windows should be closed
 - Blinds should be closed (To promote colder conditions and not let too much sunshine in)
5. **Heating**
 - Thermostat should be set no higher than 75 degrees in winter on 'heat' setting
 - Windows should be closed
 - Blinds should be open during daytime hours (to let the sunshine assist in heating the apartment)
6. **Cleanliness**
 - To reduce need for extermination, keep kitchen clean; properly dispose food
 - Trash should be properly disposed of in trash bins
7. **Recycling:** Campus Town recycles paper, cardboard, glass, plastic and metal. Our staff strongly encourages recycling.
 - Bins are in each trash room for mixed recycling and in each dumpster area
 - Note: Please do not recycle items with food residue (i.e. pizza boxes, cans or bottles that are not rinsed, etc.) and do not place trash in the recycling bins.
 - Use less plastic! Campus Town promotes the use of sports bottles over individual use plastic water bottles. Also, water filter pitchers or faucet filter pieces can reduce the amount of water waste.

Bed Bugs – Contact Campus Town Management Office as soon as you suspect an issue.

Cimex Lecturalis, or the common bedbug, poses a serious issue to community living spaces nationwide. In a proactive effort to keep Campus Town clear of this problem, we are partnering with our residents to educate them on methods of identification, prevention, and remediation.

- Resident shall review and adhere to the Bedbug Information Pamphlet provided by Campus Town electronically and/or hard copy. Please visit <https://www.epa.gov/bedbugs> for more information.
- All persons will be treated fairly and equally without regard to race, color, religion, sex, family status, disability, national origin, or source of income.
- All of Residents' belongings must be free of bedbugs at the time of the Term Commencement Date.
- Resident may not bring mattresses or furniture collected from the street or area around dumpsters into their Apartment. All secondhand furniture must be thoroughly inspected by the Resident and be free of bedbugs prior to bringing it into the building.
- If Resident has been exposed to bedbugs or suspects that they have been bitten by one or more bedbugs, they must notify the Campus Town Management office immediately.
- Residents within Apartment must prepare their Apartment as instructed by The Campus Town Management Office for the treatment of any bedbug issues, including preventative treatment(s).
- If Resident's belongings and/or furniture are found to have bedbugs, Resident must cooperate with Campus Town's treatment efforts, which may include vendor involvement.
- Resident's failure to cooperate with Campus Town's treatment efforts may result in Resident being charged for all treatment costs and resulting damages and expenses.
- Resident may be required to maintain detection devices in their Apartment and notify The Campus Town Management Office immediately upon any positive detection.

Facilities Frequently Asked Questions

We have collected the most frequently asked facilities questions for your reference. This information will help you set up your apartment and maintain it throughout the year.

May I build my own bed loft? No. Campus Town does not allow the construction of lofts, nor the possession of loft-making materials ("Kits").

Can I bring in additional large furniture for my Campus Town apartment (Beds, dressers, large appliances)? Regarding safety and space concerns we ask that no additional large furniture pieces are to be brought into Campus Town without the Campus Town Management Office's approval.

What do I do with my personal trash? Trash should be disposed of in the trash rooms located on each floor or in the large bins located outside across Campus Town. All personal trash should be placed in a garbage bag and properly tied before placing it in trash room containers. Please break down all cardboard boxes for easier removal. Residents must use recycling bins to dispose of recyclable materials and they should inform Campus Town if such bins are not available.

How do I submit a work order? Submit non-emergency work order online.

- Via the resident portal - <https://campustown.starrezhousing.com/StarRezPortalX> - login and then click on "Room Maint." on the horizontal blue bar.
- Any emergency work orders, contact the leasing office during normal office hours (9am to 5pm Mon – Fri) or when office is closed, contact the RA On Call.

How should I hang pictures on the wall? The goal is to minimize damage to the walls. We have found best for this purpose are painter's tape, *3M Command Adhesive (TM) products*, & tacks. **Do not use screws, nails (except finish nails), duct tape, adhesive pads, or putty (tack) of any kind. You are responsible for any damage which may be caused by hanging pictures or other objects on the walls. Leave the 3M Command Strips up when you move out, our staff will remove them from the walls.**

Can I hang a string of lights? You can only hang a string of lights with 3M Command Strips. Using any other adhesive will damage wall/remove paint. Residents are financially responsible for damage to the wall/paint. Leave 3M Command Strips up when you move out.

Why can't I hang anything from or near the sprinklers? The sprinklers are extremely sensitive and may activate if jostled or tampered with. If this happens, your apartment (and apartments below you) will flood within seconds. So be respectful of this equipment. If this occurs, you would be financially responsible for the damage caused by the flood.

What should I do if my cable doesn't work? First check that your cable cord is securely attached to your TV and the wall jack. Also try a "channel scan" from your television device. If that does not correct the problem, contact Single Digits at 1-833-204-2661.

What should I do if my apartment has a pest control problem? Cleaning your apartment is of utmost importance as pests are usually the result of unsanitary conditions, such as improperly stored food, or organic residue in your garbage can, etc. If the problem persists, submit a work order. If you believe there are bed bugs in the apartment, please notify the Campus Town Management office immediately. The maintenance staff will have our pest control company treat your apartment during their visit. If possible, capture a sample of the pest (place in a plastic bag) to show to the pest control company for accurate identification and treatment.

What should I do if an outlet in the bathroom or kitchen does not work? This is probably due to water contacting the required GFI outlet. There are two GFI buttons on the outlets in these areas: a test button and a reset button. If an outlet doesn't work, push the reset button. If the outlet still does not work, submit a work order.

What should I do if I lose power in an area of my apartment? If there is a power outage in the apartment, you should find the breaker box, which is a metal insert in a wall in the common area of your apartment. There are two columns of switches in the breaker box. Each switch in a column should be facing the same direction. If one switch is out of alignment, flip it back so that it is properly aligned. If all of the switches are aligned correctly, locate the switch that matches the specific area where the power outage exists (e.g. the bathroom or kitchen) and flip that switch to the opposite position and then to the correct position. If for any reason this does not fix the problem, then fill out a work order.

Will the maintenance staff change light bulbs for me? Yes, the maintenance staff will change light bulbs on all apartment fixtures. You may do this by filling out a work order.

What should I do if my toilet is clogged? In this situation you usually need a plunger. Pump the plunger into the toilet to create suction, then release the plunger, and repeat those actions until the obstruction is cleared. If your toilet is overflowing, turn the valve on the lower left-hand side of the wall behind the toilet clockwise until it stops. Use something to soak up the water before it flows to the apartment below. If the clog persists then fill out a work order and use the other bathroom in the apartment until the repair is done (One bedroom and 2-bedroom apartments may call the RA on duty through the on-call duty phone for an emergency work order to be placed).

Why does my water need time to warm up? If there is not a lot of usage it can take time for the hot water in your apartment to heat. Consider talking with your roommates about quicker showers/baths if your morning schedules are similar.

What is a maintenance emergency? A maintenance emergency is one in which the safety of a resident is jeopardized or when basic life needs are not provided. In case of a maintenance emergency, call the RA on-call.

Situations that would be considered emergencies are:

- All toilets in one apartment are clogged
- Heat does not work and temperature outside is under 45 degrees
- Air conditioning does not work and temperature outside is over 90 degrees
- Apartment and/or bedroom door will not lock/will not open
- No electricity in unit (after breakers have been checked)
- Flooding
- Refrigerator/freezer is not cooling food to safe temperatures
- Broken window (both panes)
- Inoperable smoke detector

Situations that are not maintenance emergencies, but would be handled as soon as possible the next business day include:

- Clogged toilet in a unit where another toilet works, and residents can share usage of the operating toilet
- No hot water
- Stove does not work
- Dishwasher does not work
- Microwave does not work
- Washer/Dryer does not work
- Heat does not work and temperature outside is over 45 degrees
- Air conditioning does not work and temperature outside is under 90 degrees
- Clogged shower and/or bath
- Electricity is out for one or two items

Situations that are not emergencies and would be dealt with in priority order include:

- Blinds will not go up/down
- Water drains slowly
- Broken towel rack
- Light bulb needs to be changed

What can I do to avoid being billed for damages when I move out?

- Review the following sections of this handbook: *Maintenance and Care, Room Condition Report (Inventory Report, Checking Out; your Lease Agreement and Rules and Regulations*
- Accurately submit your Room Condition Report/Information within the timeframe you are given
- Clean your apartment at least once a week.
- Pay special attention to vacuuming the carpets, cleaning the toilets, bathtubs, sinks, tile floors, stovetop, drip pans, microwave, refrigerator, dishwasher, washer/dryer and countertops.
- It is wise to set up a cleaning rotation between all residents to ensure a clean apartment at check out.
- Keep your walls in good condition: hang only one or two pictures per wall using the methods recommended above, do not place furniture directly against the walls, and make sure that your bed sheets and bedspreads do not mark the walls.
- Put a mattress pad or mattress cover on your mattress to protect it from stains.
- Prevent damage to the apartment and do not install additional items such as shelves, hooks, over-the-door hooks.
- Follow the instructions in your move-out letter to prepare your apartment for move-out. Coordinate move-out preparations with your roommates, since common area issues may be billed to all residents of the apartment.

BEING A GOOD ROOMMATE

Whether you have had a roommate/suitemate before or will be sharing an apartment for the first time, the information provided in this section can help you to prepare for a successful roommate relationship. Although the groundwork for a positive experience begins well before move-in day, the daily choices and considerations made by roommates affect the success of the shared living experience.

Unlike previous generations, many of today's college students have never had a roommate or shared a living space. Thus, it is completely natural to be a bit apprehensive. Of course, some people may be more difficult to live with than others because of values, goals, or living habits that are different from your own. Many returning students will have the experience of living with a friend of their choosing, which presents a new set of challenges that can impact both the roommate relationship and the existing friendship. Not only must you know yourself, your tendencies, and what you need in your living environment, but you must learn to effectively communicate this with your roommate(s) while also listening and adapting to their needs. The roommate relationship is very much about learning to consistently be a good roommate, first.

Be Willing to Communicate: While there are many sources of potential conflict between roommates, a willingness to communicate is often the first step toward resolving many of these issues. Clear lines of communication can be established early for new students during the first contact over the summer and for current students during the process of deciding to live together. Just remember that some level of conflict is healthy and that all new relationships go through a natural period of transition. Weathering this transition together will ultimately strengthen the roommate relationship.

Discussion Topics – Questions to ask each other (and yourself!)

All resident students should expect to formally sit down and discuss their expectations for sharing an apartment and communicating with your roommate(s). This process will take place during the first few weeks of school through the "getting to know you" phase. Completing a roommate agreement is not mandatory but is recommended because it provides the opportunity for new roommates to discuss and generally agree to what is appropriate for their living space AND within the guidelines of the resident handbook and leasing documents.

Below are some of the topics that new roommates should expect to discuss:

- Studying and Sleeping Habits (What are our schedules like? Do we plan to study in each other's rooms? Apartment common areas?)
- Cleaning and Trash Removal (How important is a clean apartment? How often should garbage be taken out and things be cleaned?)
- Visitation and Guests (How often will we have guests? Should there be advance notice of overnight guests?)
- Utilization of Space (How should common areas be set up? What is appropriate to put on the walls?)
- Sharing of Belongings (What items can be shared? Are there any items we will buy together?)
- Noise and Electronics (At what time/volume can TV/stereo/etc. be used in common areas?)
- Roommate Communication (How will we communicate when we have a concern?)
- Personal Beliefs, Values, Goals (What are your priorities at college? What things are important to you?)
- Individual Personalities (How do you react when you are angry? What annoys you most?)
- Behavioral Choices (How will you spend your free time? What do you plan to do on weekends?)

Once residents have a chance to adjust to their college schedule and get to know their roommate(s), these questions should be revisited and explored more deeply. Should concerns arise down the road; the roommate agreement can serve as a mechanism for discussion, clarification, and compromise. To request to have a room agreement completed please contact the Campus Town Management office or your RA. To complete a roommate agreement ALL residents of the apartment must agree to the terms of the agreement.

A Guide to the First Conversation with Your Roommate

It is the first chance to start building a relationship with your roommate (s) and setting the groundwork for you to successfully live together. The conversation should be more than who is going to bring the television, you need to take the time to talk and start to learn about each other.

- **Step One: Getting to Know Each Other**
 - The basics: Hometown? Academic Major? Talents? Hobbies? Family? Favorite Foods? Why The College of New Jersey?
- **Step Two: Going a Little Deeper**
 - Have each person tell their life history in about 5 minutes. You can learn what is important, what events have helped shape their life to this point, and it provides each person with thoughts to reflect on later.
- **Step Three: How to Set Up the Apartment**
 - Talk through everything and do not assume anything. Talk about everything that you want to be in the apartment. Do not assume items can be shared, talk honestly about it. Also ask and make sure that your roommate(s) are comfortable with items that you may want to bring and leave in the common areas of the apartment.
- **Step Four: Stay in Contact**
 - Set-up other times to talk before you come to campus, or even meet if possible. The more often you talk to your roommate(s) the more comfortable you will be with them when you start living together.

Communication Guidelines

Below are some suggestions on how new roommates can establish effective communication:

- Be flexible.
- Consider what is reasonable rather than what is ideal.
- Be willing to compromise but be sure to assert your rights.
- Keep in mind what you value the most.
- Address situations as soon as they arise.
- Be honest about your feelings.
- Stay calm and choose your language wisely.
- Do not assume you know what the other person is thinking.
- Ask for clarification if you don't understand.
- Do not gossip or involve others unnecessarily- go directly to the source.
- Make eye contact and be respectful.
- Try to listen and understand the other person's perspective.
- Be fair and cooperative.
- Expect a successful resolution.

Utilizing Your Resident Assistant

When direct conversation with your roommate(s) does not seem to be improving concerns within the room, your RA can help. RAs are trained in effective roommate communication and conflict resolution. They commonly act as mediators between roommates by providing an objective and impartial setting for residents to communicate and resolve their concerns. The goal of the mediation process is to open the lines of communication and create a positive living experience for all roommates. Please consider approaching your RA for help:

- When you feel intimidated and need a supportive environment to articulate your rights in the room.
- When you are at such odds with your roommate(s) that you cannot speak without an adversarial tone.
- When your roommate(s) refuse to recognize that there is a problem even though it is apparent to others.
- When a previously agreed upon solution is still not working after a period of time.
- When you are concerned about your own health or safety or that of your roommate(s).
- When you have continually tried to discuss the problem and cannot reach a reasonable solution.

If you approach your RA, you can expect the first question to be "Have you tried talking directly with your roommate(s) about your concern?" If you have not done so, the RA can provide helpful suggestions as to the best way to initiate this conversation. If you have spoken with your roommate(s) already, you can expect that your RA will spend some time getting both sides of the story. In many cases, both roommates are feeling tension and have independently voiced concerns to the RA. Once the RA understands your concerns, they will ask the roommates to sit down and talk with each other, listen, and reach an appropriate resolution. In some situations, the concern may be resolved in one brief meeting, other concerns may require additional time and dialogue. As appropriate, the RA may also refer the concern to the professional Residence Life Coordinator for assistance in determining a resolution.

Tips to Help Prevent Roommate Issues

- Communicate with each other – start discussing issues regarding which items you are willing to share and what items you want to keep private before you arrive on campus.
- Take the roommate agreement seriously if you choose to complete one – it is a tool that will only help you if you are honest and expect conflict to occur, because it will.
- Do not expect that your roommate(s) will be your best friend – while there is potential that your roommate will turn out to be a good friend, the odds of two random people becoming best friends is just not always possible.
- Be considerate of each other – think about how your actions impact your roommate(s), if there is any question in your mind at all, just ask.
- Be open and honest – if something your roommate(s) does bugs you, let them know. The longer that you let the issues go, the more frustrated you will get, and the harder it will be for the annoying behavior to be stopped.
- If your roommate is doing something you do not like, do not repress your feelings. It is usually better to constructively voice concerns immediately rather than to store up a lot of petty grievances

8. Transferring Apartments. The Agent shall not be liable for any personal conflict of Resident with any other Residents that reside at the Property or their guests or invitees. Therefore, a conflict between Residents does not constitute grounds for termination of the lease. However, the Agent acknowledges that there may be valid reasons why a request for transfer to a different apartment would be considered and approved. Any Resident desiring a transfer should make a formal written request to The Campus Town Management Office, including the reason for the requested transfer. **Space permitting**, if the request is valid and practical, and an inspection of the Resident's current apartment is satisfactory, Resident will be notified of a new assignment. In the event the Resident does not complete and return the Room Condition Report within 72 hours, The Campus Town staff may refuse to accept the report and the Resident shall forfeit all right to claim that damages to the apartment were evident prior to Resident's move-in. Agent shall inspect the Premises and common areas upon Resident surrendering the premises and common areas, and any damage thereto which is deemed by the Agent to have arisen during the Resident's occupancy and use of the Premises. Resident is not required to be present at the time of the move-out inspection; however the Resident may request an inspection appointment for a joint inspection by Resident and Agent (Through the help of a Resident Assistant). Such appointment must be requested and scheduled at least two (2) days prior to the resident's move-out date, and all of the Resident's possessions must be removed by the time of the inspection. Resident shall take good care of the furniture and agrees to maintain the furniture and return it to the Agent at the termination of this Lease in as good a condition as received, with reasonable wear and tear excepted. Residents shall not disassemble any existing furniture or fixtures, and existing furniture shall not be removed from the Resident's assigned apartment without written permission from the Agent. No oversized and/or heavy furniture is permitted in any apartment, including, but not limited to, all types of lofts, wood structures, bars and waterbeds, all of which are strictly prohibited. The use of both temporary and permanent hot tubs is prohibited.

Common area furniture is intended for the enjoyment of all Residents. This furniture is not to be removed from Common areas. Furniture found to be missing will be reported to the police. Missing furniture may be considered stolen and handled through the police as a crime.

13. Keys and Building Key Fob. Keys and building key fob are the property of the Owner and must be returned at the end of Resident's occupancy. Charges of 50.00 will be made for building key fobs not returned or for those requiring replacement during the term of Resident's occupancy. Replacement keys (i.e. broken, bent etc. and the original key is returned to the leasing office) will be charged \$25 per key, lost keys will require the resident to pay \$150.00 per key core that the missing key has affected. Resident shall not duplicate keys. Residents may request a receipt for all keys returned to the Agent. Mailbox key replacement is \$15.00. Resident acknowledges acceptance of the apartment in its present condition, agrees to maintain the apartment and return it to the Agent at the termination of this Lease in as good condition as when taken, reasonable wear and tear excepted.

Resident, at own expense, shall keep the apartment clean and fit for habitation and shall be responsible for all damage to the apartment including but not limited to furnishings, walls, floor, ceiling, screens, sprinkler system, appliances, plumbing, heating, air conditioning, and ventilation systems as a result of Resident's neglect, including that of Resident's guest(s) or invitees, regardless of whether the neglect was an affirmative act which caused the damage or failure to act in order to prevent damage. Damage to the common areas will be assessed solely to the Resident when the Resident or the Resident's guest has been identified as the responsible party, otherwise all Residents who use the common area will be billed a pro-rate share of the damages. Additional charges may be assessed for the inappropriate disposal of objects in toilets.

If the premises require repairs by the maintenance department, maintenance requests can be submitted via the student portal. Emergencies must be called into the RA on duty phone number.

15. Fire or Other Emergency. Setting or fueling a fire of any size is prohibited. The Resident shall give immediate notice to the Agent of fire, accident, damage, and dangerous or defective conditions. All Residents must evacuate the Premises during a fire alarm. Fire warning devices and safety equipment are to be used only in the case of an emergency.

A fire alarm must be taken seriously, and in the event of a fire alarm the Resident must precede in accordance with established evacuation/fire alarm protocols. These instructions may not be removed for any reason. Intentionally sounding an alarm in a non-emergency situation or tampering with emergency equipment is a criminal offense and the person or persons responsible will be treated accordingly. Tampering with apartment smoke detectors is prohibited. This paragraph shall not limit the Agent's ability to impose additional charges, penalties or sanctions for damage or destruction of fire safety equipment. Refusal to leave a building during a fire alarm, refusal to produce proper identification upon request of the Agent, refusal to cooperate with a reasonable request by the Agent, emergency personnel, or police officials acting in performance of their duties is prohibited and may result in disciplinary action.

The storage or use of gasoline or electrically powered vehicles or engines regardless of their state or dismantlement in the apartment is likewise prohibited. Setting materials on fire, possession or use of flammable or highly combustible materials is prohibited.

State Law strictly prohibits the possession or use of any weapons, fireworks, or explosive devices in the Premises or about the Property. No weapon of any kind is permitted on the Premises.
